

Business Coaching Brochure: The Rebuild Blueprint (TM)

[Your Full Name] - Business Coach for Entrepreneurs Rebuilding After Failure

Real Talk: Most coaches only teach from their wins. I teach from the trenches - the pivots, breakdowns, and rebuilds.

I've started businesses, made sales, scaled fast - and also hit walls, lost money, and had it all fall apart. Those experiences didn't break me. They gave me tools that now help other entrepreneurs avoid the same landmines.

I coach founders who've:

- Lost momentum or direction
- Had a business crumble (or burn them out)
- Want to start again - but smarter this time

If you're ready to turn collapse into clarity, let's talk.

My Signature Program: The Rebuild Blueprint (TM)

A 5-step private coaching program to help you rebuild with strategy, confidence, and real-world insight.

1. Reground:

We unpack what really happened and why it didn't work - mindset, models, money, or all of the above.

2. Reframe:

We extract the lessons and rewrite the story. You'll gain clarity on what must change moving forward.

3. Reposition:

We get crystal clear on your zone of genius, who you're meant to serve, and what business you actually want to build.

4. Rebuild:

You'll create offers, systems, and structure that support growth - without the chaos.

5. Reclaim:

Step into bold leadership again - armed with strategy, resilience, and a plan to sustain it.

Who This is For

- Solopreneurs or founders recovering from a failed business
- Entrepreneurs stuck in burnout or loss of confidence
- Dreamers who still want to build something - but this time on their terms
